

As constituents that elected our representatives in Congress, we American citizens are really SICK of the pork-belly politics that leads to the kind of nonsense like what we're hearing about from the management of XM Satellite Radio. In this case, special interests (MONEY and DC LOBBYISTS) for the imbedded/monopoly broadcasters trying to block XMSR and SIRI from delivering local content. Give me a break! Let progress, and technology reign. That is what has made this country so great.... right??

I am a Silicon Valley resident who will want to know exactly which Congressman/woman would support that sort of underhanded initiative. Then, I will do everything in my power to oppose him or her! THAT way of doing business... is the political mode of 30-50 years ago... it DOES NOT WORK today!

Sincerely,

Steve Bell
